PREFACE

The official Florida Statutes printed in three volumes and published every two years following the regular session of the legislature, is the most efficient system known to keep all of the general laws in an up-to-date convenient form for speedy reference. This system was promoted by prominent members of The Florida Bar first in 1939 when the existing Florida statutory law was revised and adopted as the official statutory law of Florida, and again in 1949 when the system was reestablished. A conference with a committee of attorneys, representing The Florida Bar in 1948, convinced me that the legal profession in Florida and governmental agencies in particular, needed an improved method for quick access to Florida statutory law. A qualified director for the Statutory Revision Department was immediately appointed when I became Attorney General in 1949. The excellent response received from government officials and attorneys throughout the state upon the reactivation of the continuous revision system reflects a keen interest in the active use of this important legal tool.

The recommendation of the Florida Bar Committee on Revision that we print the statutes in three volumes has met with universal approval; therefore this policy will be continued. Numerous requests have influenced us to include the United States Constitution, the Florida Constitution, and other miscellaneous matter in Volume III along with the general index. This should be more convenient for reference purposes.

The efficient drafting of bills in statutory form by specially trained personnel in our office for members of the Legislature, and improved methods of editing coupled with experience on the part of a selected editorial staff, has already resulted, not only in expediting the preparation of material for publication, but has exerted considerable influence on improving the wording and the mechanical process of statutes.

The practicing attorneys, governmental departments, and the judiciary have contributed many helpful suggestions for continuous improvement in the index so necessary in finding the law. We appreciate the many letters received concerning the use of "The Official Florida Statutes" and the numerous comments since we are constantly seeking ways and means for making this publication more useful for those who use it.

I commend the personnel of the Statutory Revision Department for the excellence of their work, and the members of The Florida Bar and the Legislature for promoting and supporting Florida's efficient continuous revision plan for keeping our statutory law up-to-date.

THE OFFICIAL FLORIDA STATUTES 1963

BIENNIAL PUBLICATION

The official Florida Statutes, in three volumes, are printed every two years in a completely new revision to keep the statutory law up-to-date.

The biennial plan of printing statutes is a plan which has been in successful use in some states for over fifty years. It is a preventive and a cure for the overgrowth of statutes. Since many of our statutes are short lived, the dead sections are removed and buried each two years. This procedure makes room for new statutes. The amendments and new laws of each succeeding legislature are meshed in with the standing statutes. Subject matter is gradually consolidated and often revised into single chapters, reducing the volume of reading matter.

The biennial edition of the statutes also affords members of the legislature a complete compilation of all the active general law enacted from 1885 through 1963 in a form convenient for study and improvement. Legislators can better acquaint themselves with what the law is and can amend or reject changes with understanding. A section or chapter method of revision with intelligent legislative judgment usually results in a gradual improvement of existing law.

The legislature has authorized the inclusion in this edition of the state-wide laws enacted at any special or regular session since 1961. These new laws have been edited but not changed. New decimal section numbers are assigned when the general law is converted into statutory form. History notes are added to record the legislative chapter and section of the law, which become a part of the general statutory law of the state.

The legislature at each session officially adopts all previously published session laws in statutory form. The 1963 laws included in statutory form are prima facie evidence of the existence of such laws until officially adopted by a subsequent legislative act in 1965.

FORMER REVISIONS AND COMPILATION

The laws of general application of the territory of Florida and of the State of Florida have either been compiled unofficially or revised under authority of law and adopted as official statutes in the following publications to wit: Duval's Compilation of Territorial Laws, 1840 (compilation); Thompson's Digest, 1847 (compilation); Bush's Digest, 1872 (compilation); McClellan's Digest, 1881 (compilation); Revised Statutes (R. S.) 1892 (revision enacted as a law); General Statutes (G. S.) 1906 (revision enacted as a law); Revised General Statutes (R. G. S.) 1920 (revision enacted as a law); Compiled General Laws (C. G. L.) 1927 (compilation unofficial); Official Revised Florida Statutes (F. S.) 1941 (revision enacted as a law); the Florida Statutes of 1949 (F. S. '49) (consolidation of '41 statutes and supplements); Florida Statutes of 1951, 1953, 1955, 1957, 1959 and 1961.

CONTENTS OF STATUTES

The Statutes of 1963 adopted by chapter 63-2, contain all the active Florida statutory law enacted since 1885, completely up-to-date through the regular session of 1963. It is the complete official edition of Florida statutory law. (Section 16.19 F.S.).

All amendments of the Florida Statutes together with new legislation enacted by the 1963 legislature, have been compiled and included in this edition (Section 16.44(6)(d), F.S.). The history notes following each section detail the source of the law from date of enactment to date of the present publication; including the section and chapter number as enacted.

ADOPTION OF STATUTES AND GENERAL LAW

All laws in this edition passed prior to 1963 have been officially adopted as statutory law in their present form. The effect of legislative adoption is to cure

any technical defect with reference to title, form, etc. (McConville v. Ft. Pierce Bank and Trust Co., 101 Fla. 727, 135 So. 392; Christopher v. Mugen, 61 Fla. 513, 55 So. 273; 63 Fla. 1, 58 So. 486, 89 Fla. 119, 103 So. 414, error dismissed 46 S. Ct. 23, 269 U.S. 594, 70 L.Ed. 430).

LOGICAL ARRANGEMENT OF TITLES AND CHAPTERS

The object of any arrangement of statutes is to facilitate the finding of the law. Two methods of arrangement are in general use in the United States namely: The "logical," grouping of related subjects together, as found in most digests, and the "alphabetical," as used in Corpus Juris and American Jurisprudence. A few states use a combination of both methods. A majority however prefer the "logical" arrangement which we have adopted and use in the Florida Statutes.

We have found it advisable to divide several chapters into parts (Part I, Part II, etc.) based on logical organization or related subject matter.

ALPHABETICAL CHAPTER INDEX

An alphabetical chapter index will be found in the fore of Volumes I and II. This index gives direct reference to all chapters. Chapters are alphabetically listed together with the chapter number.

NUMERICAL INDEX TO TITLES AND CHAPTERS

The "Analysis of Florida Statutes by Titles and Chapters" in all three volumes will afford a quick reference to the chapters grouped under the "logical organization" system. Familiarity with this index will save much time.

It lists by chapters groups of related subjects in a general subject field, in numerical order. Should a chapter be repealed, transferred, or expired by law, the chapter number is followed by the word (repealed), (transferred) or (expired). When vacancies occur in the numerical order, the unused numbers have been reserved for future use. A reference to this index will quickly inform one whether a chapter is still active.

Chapters have retained their original numbers except where transferred or revised.

NUMBERING SYSTEM

The decimal numbering system of identifying sections in each chapter is used in Florida.

All chapters are grouped by general subject matter and each is given a number. This chapter number appears in each section to the left of a decimal point. The section number appears to the right of the decimal point. Thus section 12 of chapter 16 would be section 16.12 in the chapter.

In adding a new section preceding section 1 (16.01) of chapter 16 it would become:

(New) Section 16.001
(Old) Section 16.01

In adding a new section between two already existing sections it would appear as:

(Old)	Section 16.01		(Old)	Section 16.12
(New)	Section 16.011	Or	(New)	Section 16.121
(Old)	Section 16.02		(Old)	Section 16.13

The system provides for vast expansion with addition of new sections as needed without necessity for a complete renumbering of existing sections or reorganization of titles and chapters.

INDEX TO SECTION SUBJECTS AT BEGINNING OF EACH CHAPTER

At the beginning of each chapter you will find a Numerical Index to section subjects within the chapter. Should skips appear in section numbers, the section has been repealed or deleted by law or transferred.

When sections have been deleted the section number together with history notes, giving the chapter number of the general session law authorizing the deletion, is transferred to the "Table of Repealed and Inactive Sections" in Volume III. Our policy is to assign new section numbers to new matter rather than reassign used section numbers. History notes will give full information on any deviation from this policy.

HISTORY NOTES AND CROSS REFERENCES

History notes have been carefully compiled, checked for accuracy with original session laws, and brought completely up-to-date. Beginning with the 1957 edition of the Statutes history notes will cite the researcher to the particular paragraphs or subsections affected by each amendment. The lawyer will find them dependable and convenient to use.

Immediately following history notes, related or qualifying laws are frequently noted in the form of cross references.

GENERAL INDEX

An index has never been prepared which has been entirely satisfactory to all members of the bench and bar. It is doubtful whether that Utopia will ever be reached.

No index can contain every possible entry. An index of such size would be incapable of practical use. On the other hand, to index the law only in those places where the user of statutes should logically look would not be sufficient because many persons are not logical in searching an index. We have attempted to reach a happy medium between the logical and the practical approach by selecting catch-words and titles that are commonly used. Cross references have been reduced to a minimum and a direct reference given to the chapter or section whenever possible in every cross reference.

We have revised the index so that it will be workable for the greatest number of persons. The checking plan which we follow insures that no section has been omitted. Every section has been properly indexed under several heads.

We have attempted to use a noun as a catch-word wherever possible instead of an adjective, preposition, a conjunction or an adverb.

The subject matter with which one is concerned will generally give a key to the spot in the index from which to begin the search.

The index is based on a logical arrangement of the statutes. The user will meet with greater success by looking in a place where it should logically be rather than relying upon alphabetical uncertainties of the index.

All indexes at best are inconvenient and time consuming. Continued improvement can and will be made through suggestions and cooperation of the bench and bar with your Statutory Revision Department.

TABLE OF STATUTORY CHANGES MADE BY THE 1963 LEGISLATURE

A table of statutory section changes made by the 1963 regular session of the legislature will be found on the inside fly leaf of Volume I printed on yellow paper. This table will give, (1) the number of the section when any change has been made in a section or subsection, (2) the type of change made whether amended, repealed, new or transferred, and (3) the number of the session law authorizing the change. This table provides a convenient method of quickly finding out whether the law has been changed in any section or chapter.

(If the section is not listed in this table the law was not changed.)

TRACING TABLE

A table, tracing the classification of general laws into the Florida Statutes, will be found in Volume III. This table indicates where a particular section of a law has been assigned in the statutes. The word "omitted" shown in place of a statute section number, indicates that the act is a local or special act or a general act of local application and is not in the statutes. To find an omitted chapter, consult the volumes of the General or Special Session Laws.

TABLE OF REPEALED AND INACTIVE SECTIONS

Preceding the General Index is a table showing repealed and inactive sections.

When a statutory law is repealed or transferred through revision to a new location in the statutes the former section number becomes inactive. All inactive section numbers have been removed from chapters in the statutes and placed in this table, along with history notes to repealed sections. Normally when a section becomes inactive the former assigned number is seldom used again. As new statutory material is added new section numbers are assigned. When a chapter is revised, consolidated or transferred and sections are reassigned a new location, generally the sections get new numbers.

The table provides a consolidated, ready source of statutory reference to all inactive sections along with useful data relating to the disposition of material formerly included therein.

TABLES OF COURTS

A new tabulation of state, district and county courts revised in 1959 and arranged according to jurisdiction beginning with the supreme court down to the small claims courts will be found in Volume III. It will give information concerning, the date of term of court, and type of courts in each county.

This tabulation is also arranged alphabetically by counties. A reference thereto will save time in determining the courts existing throughout Florida in each of the sixty-seven counties.

CENSUS AND MORTALITY TABLE

The 1960 Federal Census and the most recent mortality table will be found in Volume III.

FLORIDA CONSTITUTION

The Constitution of Florida in Volume III with index has been brought up-to-date through November 1963 amendments. The index has been meshed in with the General Index in order that a person searching for a subject may find references to both the constitution and the statutes in one index. The combined General Index has proven to be time saving and a convenient reference to statutory and constitutional provisions relating to the same general subject matter.

CONSTITUTION OF THE UNITED STATES

Upon the request of numerous lawyers and agencies, the Constitution of the United States with index is printed in Volume III.

COURT RULES, INTEGRATION RULES AND CODE OF ETHICS

The court rules, integration rules and code of ethics have been omitted from this edition. They have been printed both by the Supreme Court through West Publishing Company, and by the Florida Bar for distribution to attorneys, and this omission will eliminate a very substantial and unnecessary cost of duplication.

STATUTORY REVISION

Statutory revision technique works primarily with form rather than substance. The Statutory Revision Department of the Attorney General's Office often suggests a revision of chapters where improvements are desirable, but no change in an existing statute is made without legislative approval. The initiation of actual revision of substantive law should be sponsored by attorneys, judges, legislators, or administrators through specialized committees whose members are in close touch with the practice or enforcement of present law. The revisors always assist when called upon, and are interested in all projects and suggestions which eliminate unnecessary statutes, repetition of words and technical defects in the statutes.

Continuous revision places responsibility for ferreting out conflicts, duplications, and eliminating verbosity, circumlocution, obsolete sections, ambiguities, and many other technical faults generally found in session laws. Revision includes constant and continuous work toward the reclassification and consolidation of subject matter. It aims toward changing the wording of a law so

that essential clearness and harmony will exist in order that logical arrangement and compactness of the statutes may be obtained. Continuous revision aims toward simplicity in statement and understanding of meaning by the use of, and arrangement of, words and phrases. It helps avoid rhetorical flourishes and ornamentations as existed under the common law, and aims toward setting forth in clear cut and understandable language the present up-to-date law.

The revisor's office is a clearing house where lawyers, judges, legislators, and administrators may help make better statutory law. Persons calling attention to errors, omissions, conflicts and other defects found in the law, can materially help this department to improve our Florida Statutes.

Much valuable time can be saved in original research by reference to the improved General Index in the official Florida Statutes for subject matter reference and then reading the latest up-to-date complete statutory law on the subject in the volumes of the "Florida Statutes."

CONSTITUTION OF THE STATE OF FLORIDA

ADOPTED BY THE CONVENTION OF 1885, AS AMENDED.

The constitution of the State of Florida as it appears here is a literal reproduction of the original handwritten constitution signed by the members of the Constitutional Convention of 1885, on file in the office of the Secretary of State, with the exception of amended sections and subsequent additional amendments adopted by a vote of the people, which are reproduced here from the original joint resolutions of the Legislature filed and recorded in the office of the Secretary of State. Variances in spelling and punctuation between this reproduction and previously published copies of the constitution exist, because we have refrained from editing or correcting apparent clerical errors in the original document. The analysis which appears at the beginning of each article of the constitution, the headings which follow each section number and the history notes have been added for convenience, and are not a part of the original.

PREAMBLE

SECTION 16. Board of administration; gasoline and like taxes, distribution and use; etc.—

(a) That beginning January 1st, 1943, and for fifty (50) years thereafter, the proceeds of two (2¢) cents per gallon of the total tax levied by state law upon gasoline and other like products of petroleum, now known as the Second Gas Tax, and upon other fuels used to propel motor vehicles, shall as collected be placed monthly in the 'State Roads Distribution Fund' in the State Treasury and divided into three (3) equal parts which shall be distributed monthly among the several counties as follows: one part according to area, one part according to population, and one part according to the counties' contributions to the cost of state road construction in the ratio of distribution as provided in Chapter 15659, Laws of Florida, Acts of 1931, and for the purposes of the apportionment based on the counties' contributions for the cost of state road construction, the amount of the contributions established by the certificates made in 1931 pursuant to said Chapter 15659, shall be taken and deemed conclusive in computing the monthly amounts distributable according to said contributions. Such funds so distributed shall be administered by the State Board of Administration as hereinafter provided.

(b) The Governor as chairman, the State Treasurer, and the State Comptroller shall constitute a body corporate to be known as the 'State Board of Administration,' which board shall succeed to all the power, control and authority of the statutory Board of Administration. Said Board shall have, in addition to such powers as may be conferred upon it by law, the management, control and supervision of the proceeds of said two (2¢) cents of said taxes and all moneys and other assets which on the effective date of this amendment are applicable or may become applicable to the bonds of the several counties of this state, or any special road and bridge district, or other special taxing district thereof, issued prior to July 1st, 1931, for road and bridge purposes. The word 'bonds' as used herein shall include bonds, time warrants, notes and other forms of indebtedness issued for road and bridge purposes by any county or special road and bridge district or other special taxing district, outstanding on July 1st, 1931, or any refunding issues thereof. Said Board shall have the statutory powers of Boards of County Commissioners and Bond

Trustees and of any other authority of special road and bridge districts, and other special taxing districts thereof with regard to said bonds, (except that the power to levy ad valorem taxes is expressly withheld from said Board), and shall take over all papers, documents and records concerning the same. Said Board shall have the power from time to time to issue refunding bonds to mature within the said fifty (50) year period, for any of said outstanding bonds or interest thereon, and to secure them by a pledge of anticipated receipts from such gasoline or other fuel taxes to be distributed to such county as herein provided, but not at a greater rate of interest than said bonds now bear; and to issue, sell or exchange on behalf of any county or unit for the sole purpose of retiring said bonds issued by such county, or special road and bridge district, or other special taxing district thereof, gasoline or other fuel tax anticipation certificates bearing interest at not more than three (3) per cent per annum in such denominations and maturing at such time within the fifty (50) year period as the board may determine. In addition to exercising the powers now provided by statute for the investment of sinking funds, said Board may use the sinking funds created for said bonds of any county or special road and bridge district, or other unit hereunder, to purchase the matured or maturing bonds participating herein of any other county or any other special road and bridge district, or other special taxing district thereof, provided that as to said matured bonds, the value thereof as an investment shall be the price paid therefor, which shall not exceed the par value plus accrued interest, and that said investment shall bear interest at the rate of three (3) per cent per annum.

(c) The said board shall annually use said funds in each county account, first, to pay current principal and interest maturing, if any, of said bonds and gasoline or other fuel tax anticipation certificates of such county or special road and bridge district, or other special taxing district thereof; second, to establish a sinking fund account to meet future requirements of said bonds and gasoline or other fuel tax anticipation certificates where it appears the anticipated income for any year or years will not equal scheduled payments thereon; and third, any remaining balance out of the proceeds of said two (2¢) cents of said taxes shall monthly during the year be remitted by said board as follows: Eighty (80%) per cent to the State Road Department for the construction or reconstruction of state roads and bridges within the county, or for the lease or purchase of bridges connecting state highways within the county, and twenty (20%) per cent to the Board of County Commissioners of such county for use on roads and bridges therein.

(d) Said board shall have the power to make and enforce all rules and regulations necessary to the full exercise of the powers hereby granted and no legislation shall be required to render this amendment of full force and operating effect from and after January 1st, 1943. The Legislature shall continue the levies of said taxes during the life of this Amendment, and shall not enact any law having the effect of withdrawing the proceeds of said two (2¢) cents of said taxes from the operation of this amendment. The board shall pay refunding expenses and other expenses for services rendered specifically for, or which are properly chargeable to, the account of any county from funds distributed to such county; but general expenses of the board for services rendered all the counties alike shall be prorated among them and paid out of said funds on the same basis said tax proceeds are distributed among the several counties; provided, report of said expenses shall be made to each Regular Session of the Legislature, and the Legislature may limit the expenses of the board.

The land acquisition trust fund, created by the 1963 legislature for these multiple public purposes, shall continue from the date of the adoption of this amendment for a period of fifty years.

In the event the outdoor recreational development council shall determine to issue bonds for financing acquisition of sites for multiple purposes the state board of administration shall act as fiscal agent, and the attorney general shall handle the validation proceedings.

Such revenue shall be distributed annually among the several counties in the ratio of the number of instruction units in each county in each year computed as provided herein. The amount of the first revenues derived from the licensing of motor vehicles to be so set aside in each year and distributed as provided herein shall be an amount equal in the aggregate to the product of four hundred (\$400.00) dollars mul-

The number of instruction units in each county in each year for the purposes of this Amendment shall be the greater of (1) the number of instruction units in each county for the school fiscal year 1951-52 computed in the manner heretofore or hereafter provided by general law, or (2) the number of instruction units in such county for the preceding school fiscal year computed in the manner heretofore or hereafter provided by general law and approved by the State Board of Education (hereinafter called the State Board).

Such funds so distributed shall be administered by the State Board as now created and constituted by Section 3 of Article XII of the Constitution of Florida. For the purposes of this Amendment, said State Board, as now constituted, shall continue as a body corporate during the life of this Amendment and shall have all the powers provided in this Amendment in addition to all other constitutional and statutory powers related to the purposes of this Amendment heretofore or hereafter conferred upon said Board.

(b) The State Board shall, in addition to its other constitutional and statutory powers, have the management, control and supervision of the proceeds of the first part of the revenues derived from the licensing of motor vehicles provided for in subsection (a) hereof. The State Board shall also have power, for the purpose of obtaining funds for the use of any County Board of Public Instruction in acquiring, building, constructing, altering, improving, enlarging, furnishing, or equipping capital outlay projects for school purposes, to issue bonds or motor vehicle tax anticipation certificates, and also to issue such bonds or motor vehicle tax anticipation certificates to pay, fund or refund any bonds or motor vehicle tax anticipation certificates theretofore issued by said State Board. All such bonds shall bear interest at not exceeding four (4) per centum per annum and shall mature serially in annual installments commencing not more than three (3) years from the date of issuance thereof and ending not later than January 1, 1983, and each annual installment shall not be less than three (3) per centum of the total amount of the issue. The State Board shall have power to determine all other details of said bonds or motor vehicle tax anticipation certificates and to sell at public sale after public advertisement, or exchange said bonds or motor vehicle tax anticipation certificates, upon such terms and conditions as the State Board shall provide.

The State Board shall also have power to pledge for the payment of the principal of and interest on such bonds or motor vehicle tax anticipation certificates, including refunding bonds or refunding motor vehicle tax anticipation certificates, all or any part from the anticipated revenues to be derived from the licensing of motor vehicles provided for in this Amendment and to enter into any covenants and other agreement

with the holders of such bond or motor vehicle tax anticipation certificates at the time of the issuance thereof concerning the security thereof and the rights of the holders thereof, all of which covenants and agreements shall constitute legally binding and irrevocable contracts with such holders and shall be fully enforceable by such holders in any court of competent jurisdiction.

No such bonds or motor vehicle tax anticipation certificates shall ever be issued by the State Board until after the adoption of a resolution requesting the issuance thereof by the County Board of Public Instruction of the county on behalf of which such obligations are to be issued. The State Board of education shall limit the amount of such bonds or motor vehicle tax anticipation certificates which can be issued on behalf of any county to seventy-five (75) per cent of the amount which it determines can be serviced by the revenue accruing to the county under the provisions of this Amendment. All such bonds or motor vehicle tax anticipation certificates shall be issued in the name of the State Board of Education but shall be issued for and on behalf of the County Board of Public Instruction requesting the issuance thereof, and no election or approval of qualified electors or freeholders shall be required for the issuance thereof.

(c) The State Board shall in each year use the funds distributable pursuant to this Amendment to the credit of each county only in the following manner and order of priority:

(1) To pay all amounts of principal and interest maturing in such year on any bonds or motor vehicle tax anticipation certificates issued under the authority hereof, including refunding bonds or motor vehicle tax anticipation certificates, issued on behalf of the Board of Public Instruction of such county; subject, however, to any covenants or agreements made by the State Board concerning the rights between holders of different issues of such bonds or motor vehicle tax anticipation certificates, as herein authorized.

(2) To establish and maintain a sinking fund or funds to meet future requirements for debt service, or reserves therefor, on bonds or motor vehicle tax anticipation certificates issued on behalf of the Board of Public Instruction of such county, under the authority hereof, whenever the State Board shall deem it necessary or advisable, and in such amounts and under such terms and conditions as the State Board shall in its discretion determine.

(3) To distribute annually to the several Boards of Public Instruction of the counties for use in payment of debt service on bonds heretofore or hereafter issued by any such Board where the proceeds of the bonds were used, or are to be used, in the construction, acquisition, improvement, enlargement, furnishing, or equipping of capital outlay projects in such county, and which capital outlay projects have been approved by the Board of Public Instruction of the county, pursuant to a survey or surveys conducted subsequent to July 1, 1947 in the county, under regu-

lations prescribed by the State Board to determine the capital outlay needs of the county.

The State Board shall have power at the time of issuance of any bonds by any Board of Public Instruction to covenant and agree with such Board as to the rank and priority of payments to be made for different issues of bonds under this Subsection (3), and may further agree that any amounts to be distributed under this Subsection (3) may be pledged for the debt service on bonds issued by any Board of Public Instruction and for the rank and priority of such pledge. Any such covenants or agreements of the State Board may be enforced by any holders of such bonds in any court of competent jurisdiction.

(4) To distribute annually to the several Boards of Public Instruction of the counties for the payment of the cost of the construction, acquisition, improvement, enlargement, furnishing, or equipping of capital outlay projects for school purposes in such county as shall be requested by resolution of the County Board of Public Instruction of such county.

(5) When all major capital outlay needs of a county have been met as determined by the State Board, on the basis of a survey made pursuant to regulations of the State Board and approved by the State Board, all such funds remaining shall be distributed annually and used for such school purposes in such county as the Board of Public Instruction of the county shall determine, or as may be provided by general law.

(d) Capital outlay projects of a county shall be eligible to participate in the funds accruing under this Amendment and derived from the proceeds of bonds and motor vehicle tax anticipation certificates and from the motor vehicle license taxes, only in the order of priority of needs, as shown by a survey or surveys conducted in the county under regulations prescribed by the State Board, to determine the capital outlay needs of the county and approved by the State Board; provided, that the priority of such projects may be changed from time to time upon the request of the Board of Public Instruction of the county and with the approval of the State Board; and provided further, that this Subsection (d) shall not in any manner affect any covenant, agreement, or pledge made by the State Board in the issuance by said State Board of any bonds or motor vehicle tax anticipation certificates, or in connection with the issuance of any bonds of any Board of Public Instruction of any county.

(e) The State Board may invest any sinking fund or funds created pursuant to this Amendment in direct obligations of the United States of America or in the bonds or motor vehicle tax anticipation certificates, matured or to mature, issued by the State Board on behalf of the Board of Public Instruction of any county.

(f) The State Board shall have power to make and enforce all rules and regulations necessary to the full exercise of the powers herein granted and no legislation shall be required to render this Amendment of full force and operating effect from and after January 1, 1953. The

Legislature shall not reduce the levies of said motor vehicle license taxes during the life of this Amendment to any degree which will fail to provide the full amount necessary to comply with the provisions of this Amendment and pay the necessary expenses of administering the laws relating to the licensing of motor vehicles, and shall not enact any law having the effect of withdrawing the proceeds of such motor vehicle license taxes from the operation of this Amendment and shall not enact any law impairing or materially altering the rights of the holders of any bonds or motor vehicle tax anticipation certificates issued pursuant to this Amendment or impairing or altering any covenant or agreement of the State Board, as provided in such bonds or motor vehicle tax anticipation certificates.

The State Board shall have power to appoint such persons and fix their compensation for the administration of the provisions of this Amendment as it shall deem necessary, and the expenses of the State Board in administering the provisions of this Amendment shall be prorated among the various counties and paid out of the proceeds of the bonds or motor vehicle tax anticipation certificates or from the funds distributable to each county on the same basis as such motor vehicle license taxes are distributable to the various counties under the provisions of this Amendment. Interest or profit on sinking fund investments shall accrue to the counties in proportion to their respective equities in the sinking fund or funds.

History.—Added SJR 106, 1951; adopted 1952.

Institutions of higher learning and junior college capital outlay trust fund; bonds.—(a) That beginning January 1, 1964, and for fifty years thereafter, all of the proceeds of the revenues derived from the gross receipts taxes collected from every person, including municipalities, receiving payment for electricity for light, heat or power, for natural or manufactured gas for light, heat or power, for use of telephones and for the sending of telegrams and telegraph messages, as now provided and levied as of the time of adoption of this amendment in Chapter 203, Florida Statutes (hereinafter called "Gross Receipts Taxes"), shall, as collected be placed in a trust fund to be known as the "Institutions of Higher Learning and Junior Colleges Capital Outlay and Debt Service Trust Fund" in the State Treasury (hereinafter referred to as "Capital Outlay Fund"), and used only as provided in this Amendment.

For the purpose of this Amendment, said State Board, as now constituted, shall continue as a body corporate during the life of this Amendment and shall have all the powers provided in this Amendment in addition to all other constitutional and statutory powers related to the purposes of this

Amendment heretofore or hereafter conferred by law upon said State Board.

(b) The State Board shall have power, for the purpose of obtaining funds for acquiring, building, constructing, altering, improving, enlarging, furnishing or equipping capital outlay projects theretofore authorized by the legislature and any purposes appurtenant or incidental thereto, for Institutions of Higher Learning or Junior Colleges, as now defined or as may be hereafter defined by law, and for the purpose of constructing buildings and other permanent facilities for vocational technical schools as provided in chapter 230 Florida Statutes, to issue bonds or certificates, including refunding bonds or certificates to fund or refund any bonds or certificates theretofore issued. All such bonds or certificates shall bear interest at not exceeding four and one-half per centum per annum, and shall mature at such time or times as the State Board shall determine not exceeding, in any event, however, thirty years from the date of issuance thereof. The State Board shall have power to determine all other details of such bonds or certificates and to sell at public sale, after public advertisement, such bonds or certificates, provided, however, that no bonds or certificates shall ever be issued hereunder to finance, or the proceeds thereof expended for, any part of the cost of any capital outlay project unless the construction or acquisition of such capital outlay project has been theretofore authorized by the Legislature of Florida. None of said bonds or certificates shall be sold at less than ninety-eight per centum of the par value thereof, plus accrued interest, and said bonds or certificates shall be awarded at the public sale thereof to the bidder offering the lowest net interest cost for such bonds or certificates in the manner to be determined by the State Board.

The State Board shall also have power to pledge for the payment of the principal of and interest on such bonds or certificates and reserves therefor, including refunding bonds or certificates, all or any part of the revenue to be derived from the said Gross Receipts Taxes provided for in this Amendment, and to enter into any covenants and other agreements with the holders of such bonds or certificates concerning the security thereof and the rights of the holders thereof, all of which covenants and agreements shall constitute legally binding and irrevocable contracts with such holders and shall be fully enforceable by such holders in any court of competent jurisdiction.

No such bonds or certificates shall ever be issued by the State Board in an amount exceeding seventy-five per centum of the amount which it determines, based upon the average annual amount of the revenues derived from said Gross Receipts Taxes during the immediately preceding two fiscal years, or the amount of the revenues derived from said Gross Receipts Taxes during the immediately preceding fiscal year, as shown in a certificate filed by the State Comptroller with the State Board prior to the issuance of such bonds or certificates,

whichever is the lesser, can be serviced by the revenues accruing thereafter under the provisions of this Amendment; nor shall the State Board, during the first year following the ratification of this amendment, issue bonds or certificates in excess of seven times the anticipated revenue from said Gross Receipts Taxes during said year, nor during each succeeding year, more than four times the anticipated revenue from said Gross Receipts Taxes during such year. No election or approval of qualified electors or freeholder electors shall be required for the issuance of bonds or certificates hereunder.

After the initial issuance of any bonds or certificates pursuant to this Amendment, the State Board may thereafter issue additional bonds or certificates which will rank equally and on a parity, as to lien on and source of security for payment from said Gross Receipts Taxes, with any bonds or certificates theretofore issued pursuant to this Amendment, but such additional parity bonds or certificates shall not be issued unless the average annual amount of the revenues derived from said Gross Receipts Taxes during the immediately preceding two fiscal years, or the amount of the revenues derived from said Gross Receipts Taxes during the immediately preceding fiscal year, as shown in a certificate filed by the State Comptroller with the State Board prior to the issuance of such bonds or certificates, whichever is the lesser, shall have been equal to one and one-third times the aggregate amount of principal and interest which will become due in any succeeding fiscal year on all bonds or certificates theretofore issued pursuant to this Amendment and then outstanding, and the additional parity bonds or certificates then proposed to be issued. No bonds, certificates or other obligations whatsoever shall at any time be issued under the provisions of this Amendment, except such bonds or certificates initially issued hereunder, and such additional parity bonds or certificates as provided in this paragraph. Notwithstanding any other provision herein no such bonds or certificates shall be authorized or validated during any biennium in excess of fifty million dollars, except by two-thirds vote of the members elected to each house of the legislature; provided further that during the biennium 1963-1965 seventy-five million dollars may be authorized and validated pursuant hereto.

(c) Capital outlay projects theretofore authorized by the legislature for any Institution of Higher Learning or Junior College shall be eligible to participate in the funds accruing under this Amendment derived from the proceeds of bonds or certificates and said Gross Receipts Taxes under such regulations and in such manner as shall be determined by the State Board, and the State Board shall use or transmit to the State Board of Control or to the Board of Public Instruction of any County authorized by law to construct or acquire such capital outlay projects, the amount of the proceeds of such bonds or certificates or Gross Receipts Taxes

to be applied to or used for such capital outlay projects. If for any reason any of the proceeds of any bonds or certificates issued for any capital outlay project shall not be expended for such capital outlay project, the State Board may use such unexpended proceeds for any other capital outlay project for Institutions of Higher Learning or Junior Colleges and vocational technical schools, as defined herein, as now defined or as may be hereafter defined by law, theretofore authorized by the State Legislature. The holders of bonds or certificates issued hereunder shall not have any responsibility whatsoever for the application or use of any of the proceeds derived from the sale of said bonds or certificates, and the rights and remedies of the holders of such bonds or certificates and their right to payment from said Gross Receipts Taxes in the manner provided herein shall not be affected or impaired by the application or use of such proceeds.

The State Board shall use the moneys in said Capital Outlay Fund in each fiscal year only for the following purposes and in the following order of priority:

(1) For the payment of the principal of and interest on any bonds or certificates maturing in such fiscal year.

(2) For the deposit into any reserve funds provided for in the proceedings authorizing the issuance of said bonds or certificates, of any amounts required to be deposited in such reserve funds in such fiscal year.

(3) After all payments required in such fiscal year for the purposes provided for in (1) and (2) above, including any deficiencies for required payments in prior fiscal years, any moneys remaining in said Capital Outlay Fund at the end of such fiscal year may be used by the State Board for direct payment of the cost or any part of the cost of any capital outlay project theretofore authorized by the legislature or for the purchase of any bonds or certificates issued hereunder then outstanding upon such terms and conditions as the State Board shall deem proper, or for the prior redemption of outstanding bonds or certificates in accordance with the provisions of the proceedings which authorized the issuance of such bonds or certificates.

The State Board may invest the moneys in said Capital Outlay Fund or in any sinking fund or other funds created for any issue of bonds or certificates, in direct obligations of the United States of America or in the other securities referred to in Section 344.27, Florida Statutes.

(d) The State Board shall have the power to make and enforce all rules and regulations necessary to the full exercise of the powers herein granted and no legislation shall be required to render this Amendment of full force and operating effect on and after January 1, 1964. The Legislature, during the period this Amendment is in effect, shall not reduce the rate of said Gross Receipts Taxes now provided in said Chapter 203, Florida Statutes, or eliminate, exempt or remove any of the persons, firms

or corporations, including municipal corporations, or any of the utilities, businesses or services now or hereafter subject to said Gross Receipts Taxes, from the levy and collection of said Gross Receipts Taxes as now provided in said Chapter 203, Florida Statutes, and shall not enact any law impairing or materially altering the rights of the holders of any bonds or certificates issued pursuant to this Amendment or impairing or altering any covenants or agreements of the State Board made hereunder, or having the effect of withdrawing the proceeds of said Gross Receipts Taxes from the operation of this Amendment.

The State Board of Administration shall be and is hereby constituted as the Fiscal Agent of the State Board to perform such duties and assume such responsibilities under this Amendment as shall be agreed upon between the State

Board and such State Board of Administration. The State Board shall also have power to appoint such other persons and fix their compensation for the administration of the provisions of this Amendment as it shall deem necessary, and the expenses of the State Board in administering the provisions of this Amendment shall be paid out of the proceeds of bonds or certificates issued hereunder or from said Gross Receipts Taxes deposited in said Capital Outlay Fund.

(e) No capital outlay project or any part thereof shall be financed hereunder unless the bill authorizing such project shall specify it is financed hereunder and shall be approved by a vote of three-fifths of the elected members of each house.

CONSTITUTION OF THE UNITED STATES

PREAMBLE

We the people of the United States, in order to form a more perfect Union, establish justice, insure domestic tranquility, provide for the common defence, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity, do ordain and establish this Constitution for the United States of America.

ARTICLE I

SECTION 1. All legislative powers herein granted shall be vested in a Congress of the United States, which shall consist of a Senate and House of Representatives.

SECTION 2. ¹ The House of Representatives shall be composed of members chosen every second year by the people of the several States, and the electors in each State shall have the qualifications requisite for electors of the most numerous branch of the State legislature.

* No person shall be a representative who shall not have attained to the age of twenty-five years, and been seven years a citizen of the United States, and who shall not, when elected, be an inhabitant of that State in which he shall be chosen.

* [Representatives and direct taxes shall be apportioned among the several States which may be included within this Union, according to their respective numbers, which shall be determined by adding to the whole number of free persons, including those bound to service for a term of years, and excluding Indians not taxed, three fifths of all other persons.] The actual enumeration shall be made within three years after the first meeting of the Congress of the United States, and within every subsequent term of ten years, in such manner as they shall by law direct. The number of representatives shall not exceed one for every thirty thousand, but each State shall have at least one representative; and until such enumeration shall be made, the State of New Hampshire shall be entitled to chuse three, Massachusetts eight, Rhode-Island and Providence Plantations one, Connecticut five, New-York six, New Jersey four, Pennsylvania eight, Delaware one, Maryland six, Virginia ten, North Carolina five, South Carolina five, and Georgia three.

Note.—The part of this clause relating to the mode of apportionment of Representatives was changed after the Civil War by section 2 of the Fourteenth Amendment and as to taxes on incomes without apportionment, by the Sixteenth Amendment.

* When vacancies happen in the representation from any State, the executive authority thereof shall issue writs of election to fill such vacancies.

* The House of Representatives shall chuse their speaker and other officers; and shall have the sole power of impeachment.

SECTION 3. ¹ [The Senate of the United States shall be composed of two senators from each State, chosen by the legislature thereof, for six years; and each senator shall have one vote.]

Note.—This provision has now been changed by the Seventeenth Amendment to the Constitution.

* Immediately after they shall be assembled in consequence of the first election, they shall be divided as equally as may be into three classes. The seats of the senators of the first class shall be vacated at the expiration of the second year, of the second class at the expiration of the fourth year, and of the third class at the expiration of the sixth year, so that one third may be chosen every second year; [and if vacancies happen by resignation, or otherwise, during the recess of the legislature of any State, the executive thereof may make temporary appointments until the next meeting of the legislature, which shall then fill such vacancies.]

Note.—That part of the above paragraph in brackets was changed by the Seventeenth Amendment.

* No person shall be a senator who shall not have attained to the age of thirty years, and been nine years a citizen of the United States, and who shall not, when elected, be an inhabitant of that State for which he shall be chosen.

* The Vice President of the United States shall be President of the Senate, but shall have no vote, unless they be equally divided.

* The Senate shall chuse their other officers, and also a president pro tempore, in the absence of the Vice President, or when he shall exercise the office of the President of the United States.

* The Senate shall have the sole power to try all impeachments. When sitting for that purpose, they shall be on oath or affirmation. When the President of the United States is tried, the chief justice shall preside: and no person shall be convicted without the concurrence of two thirds of the members present.

* Judgment in cases of impeachment shall not extend further than to removal from office, and disqualification to hold and enjoy any office of honor, trust or profit under the United States: but the party convicted shall nevertheless be liable and subject to indictment, trial, judgment and punishment, according to law.

SECTION 4. ¹ The times, places and manner of holding elections for senators and representatives, shall be prescribed in each State by the legislature thereof; but the Congress may at any time by law make or alter such regulations, except as to the places of chusing senators.

* [The Congress shall assemble at least once

in every year, and such meeting shall be on the first Monday in December, unless they shall by law appoint a different day.]

Note.—This provision of the Constitution has been superseded by the Twentieth Amendment.

SECTION 5. ¹ Each House shall be the judge of the elections, returns and qualifications of its own members, and a majority of each shall constitute a quorum to do business; but a smaller number may adjourn from day to day, and may be authorized to compel the attendance of absent members, in such manner, and under such penalties as each House may provide.

² Each House may determine the rules of its proceedings, punish its members for disorderly behaviour, and, with the concurrence of two thirds, expel a member.

³ Each House shall keep a journal of its proceedings, and from time to time publish the same, excepting such parts as may in their judgment require secrecy; and the yeas and nays of the members of either House on any question shall, at the desire of one fifth of those present, be entered on the journal.

⁴ Neither House, during the session of Congress, shall, without the consent of the other, adjourn for more than three days, nor to any other place than that in which the two Houses shall be sitting.

SECTION 6. ¹ The senators and representatives shall receive a compensation for their services, to be ascertained by law, and paid out of the Treasury of the United States. They shall in all cases, except treason, felony, and breach of the peace, be privileged from arrest during their attendance at the session of their respective Houses, and in going to and returning from the same; and for any speech or debate in either House, they shall not be questioned in any other place.

² No senator or representative shall, during the time for which he was elected, be appointed to any civil office under the authority of the United States, which shall have been created, or the emoluments whereof shall have been increased during such time; and no person holding any office under the United States, shall be a member of either House during his continuance in office.

SECTION 7. ¹ All bills for raising revenue shall originate in the House of Representatives; but the Senate may propose or concur with amendments as on other bills.

² Every bill which shall have passed the House of Representatives and the Senate, shall, before it becomes a law, be presented to the President of the United States; if he approve he shall sign it, but if not he shall return it, with his objections to that House in which it shall have originated, who shall enter the objections at large on their journal, and proceed to reconsider it. If after such reconsideration two thirds of that House shall agree to pass the bill, it shall be sent, together with the objections, to the other House,

by which it shall likewise be reconsidered, and if approved by two thirds of that House, it shall become a law. But in all such cases the votes of both Houses shall be determined by yeas and nays, and the names of the persons voting for and against the bill shall be entered on the journal of each House respectively. If any bill shall not be returned by the President within ten days (Sundays excepted) after it shall have been presented to him, the same shall be a law, in like manner as if he had signed it, unless the Congress by their adjournment prevent its return, in which case it shall not be a law.

³ Every order, resolution, or vote to which the concurrence of the Senate and House of Representatives may be necessary (except on a question of adjournment) shall be presented to the President of the United States; and before the same shall take effect, shall be approved by him, or being disapproved by him, shall be re-passed by two thirds of the Senate and House of Representatives, according to the rules and limitations prescribed in the case of a bill.

SECTION 8. The Congress shall have power

¹ To lay and collect taxes, duties, imposts, and excises, to pay the debts and provide for the common defence and general welfare of the United States; but all duties, imposts, and excises shall be uniform throughout the United States;

² To borrow money on the credit of the United States;

⁹ To constitute tribunals inferior to the Supreme Court;

¹⁰ To define and punish piracies and felonies committed on the high seas, and offenses against the law of nations;

¹¹ To declare war, grant letters of marque and reprisal, and make rules concerning captures on land and water;

¹² To raise and support armies, but no appropriation of money to that use shall be for a longer term than two years;

¹³ To provide and maintain a navy;

¹⁴ To make rules for the government and regulation of the land and naval forces;

¹⁵ To provide for calling forth the militia to execute the laws of the Union, suppress insurrections and repel invasions;

¹⁶ To provide for organizing, arming, and disciplining, the militia, and for governing such part of them as may be employed in the service of the United States, reserving to the States respectively, the appointment of the officers, and the authority of training the militia according to the discipline prescribed by Congress;

¹⁷ To exercise exclusive legislation in all cases whatsoever, over such district (not exceeding ten miles square) as may, by cession of particular States, and the acceptance of Congress, become the seat of the government of the United States, and to exercise like authority over all places purchased by the consent of the legislature of the State in which the same shall be, for the erection of forts, magazines, arsenals, dock-yards, and other needful buildings; —and

¹⁸ To make all laws which shall be necessary and proper for carrying into execution the foregoing powers, and all other powers vested by this Constitution in the government of the United States, or in any department or officer thereof.

SECTION 9. ¹ The migration or importation of such persons as any of the States now existing shall think proper to admit, shall not be prohibited by the Congress prior to the year one thousand eight hundred and eight, but a tax or duty may be imposed on such importation, not exceeding ten dollars for each person.

² The privilege of the writ of habeas corpus shall not be suspended, unless when in cases of rebellion or invasion the public safety may require it.

³ No bill of attainder or ex post facto law shall be passed.

⁴ [No capitation, or other direct, tax shall be laid, unless in proportion to the census or enumeration herein before directed to be taken.]

Note.—This provision was changed in 1913 by the Sixteenth Amendment to the Constitution.

⁵ No tax or duty shall be laid on articles exported from any State.

⁶ No preference shall be given by any regulation of commerce or revenue to the ports of one State over those of another: nor shall vessels bound to, or from, one State be obliged to enter, clear, or pay duties in another.

⁷ No money shall be drawn from the treasury, but in consequence of appropriations made by law; and a regular statement and account of the receipts and expenditures of all public money shall be published from time to time.

⁸ No title of nobility shall be granted by the United States: and no person holding any office of profit or trust under them, shall, without the consent of the Congress, accept of any present, emolument, office, or title, of any kind whatever, from any king, prince, or foreign State.

SECTION 10. ¹ No State shall enter into any treaty, alliance, or confederation; grant letters

of marque and reprisal; coin money; emit bills of credit; make anything but gold and silver coin a tender in payment of debts; pass any bill of attainder, ex post facto law, or law impairing the obligation of contracts, or grant any title of nobility.

² No State shall, without the consent of the Congress, lay any imposts or duties on imports or exports, except what may be absolutely necessary for executing its inspection laws: and the net produce of all duties and imposts, laid by any State on imports or exports, shall be for the use of the Treasury of the United States; and all such laws shall be subject to the revision and controul of the Congress.

³ No State shall, without the consent of the Congress, lay any duty of tonnage, keep troops, or ships of war in time of peace, enter into an agreement or compact with another State, or with a foreign power, or engage in war, unless actually invaded, or in such imminent danger as will not admit of delay.

ARTICLE II

SECTION 1. ¹ The executive power shall be vested in a President of the United States of America. He shall hold his office during the term of four years, and together with the Vice President, chosen for the same term, be elected as follows:

² Each State shall appoint, in such manner as the legislature thereof may direct, a number of electors, equal to the whole number of senators and representatives to which the State may be entitled in the Congress: but no senator or representative, or person holding an office of trust or profit under the United States, shall be appointed an elector.

[The electors shall meet in their respective States, and vote by ballot for two persons, of whom one at least shall not be an inhabitant of the same State with themselves. And they shall make a list of all the persons voted for, and of the number of votes for each; which list they shall sign and certify, and transmit sealed to the seat of the government of the United States, directed to the president of the Senate. The president of the Senate shall, in the presence of the Senate and House of Representatives, open all the certificates, and the votes shall then be counted. The person having the greatest number of votes shall be the President, if such number be a majority of the whole number of electors appointed; and if there be more than one who have such majority, and have an equal number of votes, then the House of Representatives shall immediately chuse by ballot one of them for President; and if no person have a majority, then from the five highest on the list the said House shall in like manner chuse the President. But in chusing the President, the votes shall be taken by States, the representation from each State having one vote; a quorum for this purpose shall consist of a member or members from two thirds of the States, and a majority of all the States

shall be necessary to a choice. In every case, after the choice of the President, the person having the greatest number of votes of the electors shall be the Vice President. But if there should remain two or more who have equal votes, the Senate shall chuse from them by ballot the Vice President.]

Note.—Clause enclosed in brackets superseded by Twelfth Amendment.

* The Congress may determine the time of chusing the electors, and the day on which they shall give their votes; which day shall be the same throughout the United States.

* No person except a natural born citizen, or a citizen of the United States, at the time of the adoption of this Constitution, shall be eligible to the office of President; neither shall any person be eligible to that office who shall not have attained to the age of thirty-five years, and been fourteen years a resident within the United States.

* In case of the removal of the President from office, or at his death, resignation, or inability to discharge the powers and duties of the said office, the same shall devolve on the Vice President, and the Congress may by law provide for the case of removal, death, resignation or inability, both of the President and Vice President, declaring what officer shall then act as President, and such officer shall act accordingly, until the disability be removed, or a President shall be elected.

* The President shall, at stated times, receive for his services, a compensation which shall neither be increased nor diminished during the period for which he shall have been elected, and he shall not receive within that period any other emolument from the United States, or any of them.

* Before he enter on the execution of his office, he shall take the following oath or affirmation:—"I do solemnly swear (or affirm) that I will faithfully execute the office of President of the United States, and will to the best of my ability, preserve, protect and defend the Constitution of the United States."

SECTION 2. ¹ The President shall be commander in chief of the army and navy of the United States, and of the militia of the several States, when called into the actual service of the United States; he may require the opinion, in writing, of the principal officer in each of the executive departments, upon any subject relating to the duties of their respective offices, and he shall have power to grant reprieves and pardons for offences against the United States, except in cases of impeachment.

* He shall have power, by and with the advice and consent of the Senate, to make treaties, provided two-thirds of the Senators present concur; and he shall nominate, and by and with the advice and consent of the Senate, shall appoint ambassadors, other public ministers and consuls, judges of the Supreme Court, and all other officers of the United States, whose appointments

are not herein otherwise provided for, and which shall be established by law: but the Congress may by law vest the appointment of such inferior officers, as they think proper, in the President alone, in the courts of law, or in the heads of departments.

* The President shall have power to fill up all vacancies that may happen during the recess of the Senate, by granting commissions which shall expire at the end of their next session.

SECTION 3. He shall from time to time give to the Congress information of the state of the Union, and recommend to their consideration such measures as he shall judge necessary and expedient; he may, on extraordinary occasions, convene both Houses, or either of them, and in case of disagreement between them, with respect to the time of adjournment, he may adjourn them to such time as he shall think proper; he shall receive ambassadors and other public ministers; he shall take care that the laws be faithfully executed, and shall commission all the officers of the United States.

SECTION 2. ¹ The judicial power shall extend to all cases, in law and equity, arising under this Constitution, the laws of the United States, and treaties made, or which shall be made, under their authority;—to all cases affecting ambassadors, other public ministers and consuls;—to all cases of admiralty and maritime jurisdiction;—to controversies to which the United States shall be a party;—to controversies between two or more States; between a State and citizens of another State;—between citizens of different States;—between citizens of the same State claiming lands under grants of different States, and between a State, or the citizens thereof, and foreign States, citizens or subjects.

* In all cases affecting ambassadors, other public ministers and consuls, and those in which a State shall be a party, the Supreme Court shall have original jurisdiction. In all the other cases before mentioned, the Supreme Court shall have appellate jurisdiction, both as to law and fact, with such exceptions, and under such regulations as the Congress shall make.

* The trial of all crimes, except in cases of

impeachment, shall be by jury; and such trial shall be held in the State where the said crimes shall have been committed; but when not committed within any State, the trial shall be at such place or places as the Congress may by law have directed.

SECTION 3. ¹ Treason against the United States, shall consist only in levying war against them, or in adhering to their enemies, giving them aid and comfort. No person shall be convicted of treason unless on the testimony of two witnesses to the same overt act, or on confession in open court.

² The Congress shall have power to declare the punishment of treason, but no attainder of treason shall work corruption of blood, or forfeiture except during the life of the person attainted.

³ No person held to service or labour in one State, under the laws thereof, escaping into another, shall in consequence of any law or regulation therein, be discharged from such service or labour, but shall be delivered up on claim of the party to whom such service or labour may be due.

SECTION 3. ¹ New States may be admitted by the Congress into this Union; but no new State shall be formed or erected within the jurisdiction of any other State; nor any State be formed by the junction of two or more States, or parts of States, without the consent of the legislatures of the States concerned as well as of the Congress.

² The Congress shall have power to dispose of and make all needful rules and regulations respecting the territory or other property belonging to the United States; and nothing in this Constitution shall be so construed as to prejudice any claims of the United States, or of any particular States.

SECTION 4. The United States shall guarantee to every State in this Union a republican form of government, and shall protect each of them against invasion; and on application of the legislature, or of the executive (when the legis-

lature cannot be convened) against domestic violence.

ARTICLE V

ARTICLE VI

¹ All debts contracted and engagements entered into, before the adoption of this Constitution, shall be as valid against the United States under this Constitution, as under the Confederation.

³ The senators and representatives before mentioned, and the members of the several State legislatures, and all executive and judicial officers, both of the United States and of the several States, shall be bound by oath or affirmation to support this Constitution; but no religious test shall ever be required as a qualification to any office or public trust under the United States.

ARTICLE VII

The general statutes provide that the fees in the county courts of counties having less than 150,000 population shall be \$7.50 basic fee and for appeals to or from the county court may be \$3.50. In counties over 150,000 in population, the basic fee may be \$6, delinquent tenant, \$4, and all other fees the same as in the circuit court. The above table shows the average span of life as taken from the new "1958 Commissioners Standard Ordinary" mortality table. This table is based upon the death records of American life insurance companies during the period 1950-54. The new mortality table largely replaces the 1941 Commissioners Standard Ordinary Table of Mortality, based upon death records during 1930-1940, which replaced the American Experience Table of Mortality based upon death records during 1843-1858.

J. EDWIN LARSON, State Treasurer and Insurance Commissioner.

INDEX

EXPLANATORY NOTE TO INDEX

These statutes contain more than 14,500 sections of up-to-date statutory law. Every section has been checked and indexed. There are over 135,000 index references.

A study of the indexing system used will make the finding of law much easier.

If the subject is not indexed it has probably been repealed. See table of statutory changes made by the 1963 legislature.

This index has been revised to conform generally to the more standard classifications of law found in the commonly used legal publications, except where it has been necessary to create special headings to conform to our peculiar statutes.

A detailed index to each subject item, whenever a necessary reference is used, would make the size of an index prohibitive since the same subject item may be found in a dozen or more places.

While many lawyers desire a detailed index under each subject item others prefer to have all related references in one place under the general subject head with adequate cross reference to other related subjects.

We have endeavored to meet both of these plans by assembling, wherever possible, all statutory references to a law under a general subject heading with ample cross references from other related or equivalent titles to the main general subject. But whenever we find the subject title can be amply indexed with relatively few statutory references these are repeated throughout the index under every subtitle reference thus eliminating unneeded cross references. When cross references are needed we have also, wherever possible, given the chapter number or section reference, so that the searcher can go direct to the chapter or section if desired.

The reference entries have been phrased to bring out the noun or main thought of the statute, in the title or subtitle catch words.

It is hoped that the plan of following the general classification of the law will be acceptable and that the utility of the statutes will be increased by the use of this index, though occasions probably will arise when improvements will be needed.
